We cherish experimenting with materials, processes, and techniques, from new to natural to recycled, to create products with an element of intrigue or play. Our meticulously designed products are carefully crafted and manufactured in India. We like to call our products FUN-ctional, products that are both fun and functional at their core. Along with designing our own products, we collaborate with architects, interior designers & manufacturers on custom projects.

Bello In Bloom

Ivory - Hand Painted

Say hello to Bello, In Bloom - A Limited-Edition Collectible between Name Place Animal Thing & House of Berserk

This piece turns a functional object into a magical living canvas—one that feels as though it has been slowly overtaken by an imagined garden. The almost obsessive delicacy of the line work weaves tropical foliage, animals and architectural forms, creating a visual landscape that sits somewhere between memory and fantasy, nature and the built world. Bello in bloom essentially is A Search of Elsewhere - giving the work a sense of wandering and discovery.

Senaya Pendant Lamp

Ivory

“Totem” is a rhythm of light, a sequence of forms arranged in quiet harmony. Its silhouette recalls ancient markers of belonging: structures that stood as guardians, storytellers, and symbols of community. Here, the geometry is softened, rounded modules stitched together into a glowing composition that radiates warmth. The lamp is monumental yet human, grounding yet uplifting, a sculpture that transforms a space into a place of quiet ceremony. Each Totem is meticulously handcrafted, its form shaped with patience and care, carrying forward the ritual of making into the ritual of living.
