The Habitat Collection

The Habitat Collection is inspired by the jungle. It embodies the great natural beauty of the wilderness and seeks to bring the raw, striking charm of flora and fauna into your home.

All pieces are conversation starters for you and your guests. The intent is to bring a smile to the face when you look at a piece. A blend of handcrafted enigma with machine finesse, this is the first thematic collection launched by **Name Place Animal Thing**.

Like all products made by Name Place Animal Thing, a primary purpose of the collection is to create FUNCTIONAL products - adding fun and quirkiness to functional products of daily need.

The Habitat Collection is designed by Priyam Doshi.
